

Notification to All Cnergyico Fuel Retailers

Subject: Advisory to Maintain Adequate Fuel Stocks Amid Current Geopolitical Situation

Dear Retailers,

In light of the recent escalation in tensions between India and Pakistan, there is an increased risk of potential disruptions to national logistics and fuel supply chains.

As an Oil Marketing Company, it is our collective duty to ensure the continuous availability of fuel to the public and government entities, especially during critical times such as these.

We urge you to take the following immediate actions:

1. Top up all underground storage tanks without delay.
2. Maintain maximum safe stock levels at all times.
3. Coordinate closely with CPL teams and the Retail Operations Call Center.
4. Utilize the **CNERGYICO CONECCT** mobile application to monitor live order locations.
5. Ensure accurate and up-to-date stock records at your retail site(s).
6. Avoid delays in placing orders and ensure timely payments.

Your role is vital in maintaining national readiness and public service continuity during any unforeseen developments. Let us remain responsible, prepared, and unified in our response. For any support or urgent coordination, please contact your respective Territory Manager or the Retail Operations Call Center.

Thank you for your continued commitment and cooperation.

Best regards,

Cnergyico Pk Limited
